

BPS CAPABILITY STATEMENT

Case Study: State Significant Development (SSD) Experience

About Us

Bridge Project Solutions (BPS) Pty Ltd is a project management consulting, contracting services organization with highly skilled professionals experienced in delivering large scale projects in the Port Kembla and greater Illawarra precincts.

State Significant Development (SSD) Experience in Port Kembla

- BPS personnel have previously project managed a dangerous goods type SSD project in the Port precinct achieving Planning Approval (ref: SSD 15_7264) http://majorprojects.planning.nsw.gov.au/index.pl?action=view_job&job_id=7264
- This was a proposed 220mL unleaded and diesel fuel terminal with berth unloading facilities.
- BPS personnel have deep knowledge of the “Three (3) Ports SEPP” and the planning and environmental requirements for projects in close proximity to waterways. This applies equally to developments either in Port Kembla harbour or at the Tallawarra / Lake Illawarra site.
- All BPS project professional have very strong, extensive ‘brownfield’ type project experience, highly suited to any redevelopment works at Tallawarra.
- BPS understand the geology and ecology of the Port Kembla precinct, particularly for mitigating client risks in relation to baselining geotechnical conditions.
- Excellent stakeholder engagement and management skills.
- Professional relationships that are in good standing with existing key stakeholders such as:
 - NSW Ports (incl: General Manager – Infrastr.)
 - Wollongong Council (incl: General Manager)
 - Harbour Master
 - Port User Council
 - BlueScope Steel
 - Port Kembla Coal Terminal
 - SafeWork NSW (Construction Division)
 - EPA (Wollongong office)
 - Stakeholder groups such as the Port Kembla Pollution Group

Project Management Consulting

- BPS Principal Consultant, David Bridge, has acquired the following credentials:
 - ‘Certified Practising Senior Project Manager’ (CPSPM) with the AIPM
 - ‘Project Management Professional’ (PMP) with the PMI
 - Masters Degree in Project Management (University of Sydney)
 - Recipient of two Global Corporate Awards for ‘Excellence in Project Delivery’. One was for the development of a project delivery framework implemented globally.
- Deep experience of delivering through the whole of the project life cycle, e.g.:
 - Executive level corporate strategy development
 - Portfolio, program, project delivery strategy development
 - Concept, pre-feasibility and feasibility study phases
 - Strong proponents of a phase toll-gating process such as CDRI
 - Construction, commissioning, operational readiness and handover to operations experience

Project Management Contracting

- BPS has the following professionals available to AIE:
 - Client-side project managers and or project engineers of ‘integrated owner teams’
 - Planner / Schedulers
 - Cost Controllers
 - Procurement managers
 - Site Co-Ordinator's
 - Operational readiness planners
 - Commissioning managers
 - Risk workshop facilitators (e.g., safety in design, RAMBO, CHAIR)
 - Experts in AS1940 and API 650 re storage of flammable and combustible liquids
