

BPS CAPABILITY STATEMENT

Case Study: Defence Sector

About Us

Bridge Project Solutions (BPS) is a project management consulting and contracting services organization with highly skilled and experienced professionals demonstrating effective and efficient client-side representation.

Our personnel are highly suited to Defence Sector work such as base facility upgrades, fuel storage installation and major equipment procurement programs.

Defence Sector Capability

BPS is renowned for its project delivery skills, experience and broad capabilities, including:

- Sustaining and minor project delivery of facilities ranging from several hundred thousand dollars to \$20m to \$50m
- Fuel storage facilities, including planning approvals and installation
- Business case development
- Major equipment procurement programs
- Planning and scheduling
- Technical document review and writing

Clearances

BPS and its personnel are part of the Defence Industry Security Program (DISP) and has personnel with Aust. Gov. Security Vetting Agency (AGSVA) **Baseline** and **NV1** security clearances.

Cyber Security

BPS has an approved cyber security management plan which is underpinned by the achievement of Level 3 compliance against each criteria of the Aust Cyber Security Centre's (ACSC) 'Essential 8' mitigation strategies.

Examples of Defence Sector Projects

- Armidale Class Frigate Repair Program – Singapore
